

Test Name	Sample Type	Turnaround Time	Price ex. GST	Price inc. GST	Sample Requirements
Complete Blood Count (CBC)	Blood (EDTA)	Same day	\$47.88	\$52.67	2 mL whole blood in EDTA tube (purple cap). Mix by gentle inversion and keep refrigerated.
Serum Chemistry 11	Blood serum	Same day	\$77.04	\$84.75	2 mL whole blood in plain tube (grey cap) or serum tube (red cap). Keep refrigerated.
Serum Chemistry 18	Blood serum	Same day	\$107.85	\$118.64	3 mL whole blood in plain tube (grey cap) or serum tube (red cap). Keep refrigerated.
Progesterone	Blood serum	Same day	\$60.30	\$66.33	2 mL whole blood in plain tube (grey cap) or serum tube (red cap). Keep refrigerated.
Urinalysis	Urine	Same day	\$37.50	\$41.25	2-10 mL urine in sterile container (yellow specimen jar). Keep refrigerated.
Culture & Sensitivity	Swab	2-3 days	\$100.00	\$110.00	Use a sterile swab to obtain fluid/material from within the infection site. Keep refrigerated.

*Keep all collected samples cool until collection, do not freeze.

Test Parameters

CBC - RBC, Haematocrit, Haemoglobin, MCV, MCH, MCHC, RDW, % Reticulocytes, Reticulocytes, Reticulocyte Haemoglobin, WBC, % Neutrophils, % Lymphocytes, % Monocytes, % Eosinophils, % Basophils, Neutrophils, Lymphocytes, Monocytes, Eosinophils, Basophils, Platelets, PDW, MPV, Plateletcrit.

Serum Chemistry 11 - Glucose, SDMA, Creatinine, Urea, BUN:Creatinine Ratio, Total Protein, Albumin, Globulin, Albumin:Globulin Ratio, ALT, ALP.

Serum Chemistry 18 - Glucose, SDMA, Creatinine, Urea, BUN:Creatinine Ratio, Phosphorus, Calcium, Total Protein, Albumin, Globulin, Albumin:Globulin Ratio, ALT, ALP, GGT, Bilirubin - Total, Cholesterol, Amylase, Lipase.

Progesterone - Progesterone level in nmol/L.

Culture & Sensitivity - Aerobic bacterial culture with antimicrobial susceptibility testing by disc diffusion. Antimicrobial selection and reporting are based on organism type, sample site, clinical history, expected activity, and applicable interpretive guidance.

GeneXLabs - Veterinary Diagnostics
